

Dóra Sárközi | Script Supervisor

Dora is a Budapest-based script supervisor available for productions across Europe.

She brings experience across all platforms and works closely with directors and editors to support them in bringing their creative vision to life. Fluent in English and Hungarian, and has also worked extensively on projects involving additional languages.

She has worked across a broad range of genres, but her biggest dream is to work on a movie musical.

Outside of work, Dora goes on long walks with her dog and is always happy to share the cutest photos.
